

AKS CNI Powered by Cilium

Agenda

-
1. Azure CNI Powered by Cilium
 2. ACPC vs ACNS
 3. Demo

Azure CNI Powered by Cilium

Free CNI (Container Network Interface)

Replaces kube-proxy with eBPF

Improved service routing

Better observability of cluster traffic

Azure CNI Powered by Cilium

Only available on Linux

Advanced Container Networking Services (ACNS)
needed for advanced features

We will only scratch the surface today

Supported feature	Without ACNS	With ACNS
Cilium Endpoint Slices	Supported ✓	Supported ✓
Kubernetes Network Policies	Supported ✓	Supported ✓
Local Redirect Policy	Supported ✓	Supported ✓
Cilium L3/L4 Network Policies	Supported ✓	Supported ✓
Cilium Clusterwide Network Policy	Supported ✓	Supported ✓
FQDN Filtering	Not supported ✗	Supported ✓
L7 Network Policies (HTTP/gRPC/Kafka)	Not supported ✗	Supported ✓
Container Network Observability (Metrics and Flow logs)	Not supported ✗	Supported ✓
Wireguard	Not supported ✗	Supported ✓
mTLS Encryption	Not supported ✗	Supported ✓
eBPF Host Routing	Not supported ✗	Supported ✓

Demo
